BASIC PRACTICAL SKILLS EXAMINATION REPORT

Skill sheet #

IFBE-08

Certification title

**Industrial Fire Brigade
Basic Advance Exterior Member
SKILL REQUIREMENTS – DIRECT ATTACK
FROM THE EXTERIOR**

Applicant Information

Candidate name

DFS ID #

Course #

Evaluation

**Standard:
NFPA 1081,
Chapter 5.2.3 (B)
2018 Edition**

Task

While wearing PPE, the brigade member will demonstrate a direct attack by directing the water stream at the base of the fire. This action must be performed from the exterior of a room / building.

Conditions and Outcome

The brigade member shall don full personal protective equipment (PPE), self-contained breathing apparatus (SCBA) and personal alert safety system (PASS). Using a 1-3/4 inch preconnected hose line or a master stream appliance the brigade team shall be able to perform a direct attack to extinguish or control a fire.

Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Don your protective hood, pants, boots, and coat and SCBA.						
2	Deploy hose lines establishing a water source, and assemble an attack line for advancement to the area.						
3	The brigade team shall approach in a safe manner to attack the fire as a team.						
4	Notify the pump driver/operator that you are ready for water.						
5	Open the nozzle to purge air from the system, and make sure water is flowing. If using an adjustable nozzle, ensure that it is set to the proper nozzle pattern for entry. Shut down the nozzle until you are in a position to apply water						
6	Once entering the controlled environment and apply the water stream to the base of the fire and as the fire is extinguished, the brigade member is to demonstrate the use of tools to locate any hidden fire.						
7	The brigade team shall demonstrate the use of hose line nozzles opening and shutting the nozzle preventing water hammer.						
8	The brigade team shall demonstrate the use of nozzle control by exhibiting the adjustment of the water stream.						
9	Using a back-up brigade team, the teams shall communicate the best results for controlling and extinguishment of the fire.						

10	The brigade teams shall demonstrate the use of wind direction to maintain principles of exposure to the products of combustion.						
11	Identify who is the safety spotter.
