

Office of Training and Certification	<h2 style="text-align: center;">New Jersey Division of Fire Safety</h2> <h3 style="text-align: center;">BASIC PRACTICAL SKILLS EXAMINATION REPORT</h3>						
	Skill sheet # HMT-51	Certification title <h3 style="text-align: center;">Hazardous Material Technician</h3>					
Applicant Information							
Candidate name					DFS ID #		Course #
Evaluation							
Standard: NFPA 470, 2022 edition 11.4.3.3		Task <h3 style="text-align: center;">Over-pack a non-bulk container or package. Rolling Slide-in-Method</h3>					
		Conditions and Outcome Provided with the proper equipment and tools the candidate, with the assistance of another candidate, shall overpack a nonbulk container. Competency is demonstrated by performing all steps correctly and in the proper order.					
Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Using the appropriate resource(s), identifies the released material and its hazards						
2	Identifies control requirements and selects the appropriate technique for product control as identified by the AHJ						
3	Identifies and communicates safety concerns to assisting personnel.						
4	Selects the appropriate PPE based on the characteristics of the material						
5	Selects tool that are compatible with the material						
6	Selects a location to perform the control operation safely and efficiently.						
7	Completes the monitoring requirements for the specific material.						
8	Follows safety procedures to minimize/avoid safety hazards						
9	To the extent possible, avoids direct contact with the hazardous material to include residual material						
10	Positions the overpack container at approximately a 30-degree angle to the base of the damaged container.						
11	Ensures the area is free of obstructions.						
12	With assistance, both containers are rolled so that the damaged container is inserted into the overpack container						
13	Continues rolling process until most of the damaged container is within the confines of the overpack container.						
14	Using proper lifting techniques lifts the overpack container into the upright position.						
15	Close the overpack container following the manufacturer's instructions.						
16	Mark & label the overpack container following any applicable regulations and the AHJ requirements						
17	Communicates all observations to the HM Branch Director or other appropriate personnel.						

18.	If applicable decontaminates tools and equipment						
19	If indicated, directs that PPE/SCBA be decontaminated.						
20.	Completes all required documentation						
Final Test Result for Entire Task
