Comp

Number	Task Steps	First Test		Retest #1		Retest #2	
		Pass	Fail	Pass	Fail	Pass	Fail
1	Ensure proper decontamination method has been chosen to minimize hazards.						
2	Ensure that all responders wear appropriate PPE for performing technical decontamination operations.						
3	Establish technical decontamination corridor for non-ambulatory decontamination in a safe location and according to the AHJ's SOPs.						
4	Ensure the decontamination corridor provides privacy for victims.						
5	Establish an initial triage point to evaluate and direct victims.						
6	Perform lifesaving intervention if necessary.						
7	Transfer the victim to the non-ambulatory wash area of the decontamination station on an appropriate backboard/litter device.						
8	Instruct victim to remove all clothing, jewelry, and personal belongings if able to, and place in appropriate containers. Decontaminate items as required, and safeguard. Use bags with labels for identification.						
9	Carefully undress non-ambulatory victims and avoid spreading the contamination when undressing. Do not touch the outside of the clothing to the skin.						
10	Completely wash the victims' entire body using handheld hoses, sponges, and or brushes, and then rinse.						
11	Transfer the victim from the wash and rinse stations to a drying station after completing the decontamination process. Ensure that the victim is completely dry.						
12	Monitor for additional contamination using the appropriate detection device.						
13	Have on scene medical personnel re-valuate the victim's injuries.						
14	Ensure personnel, tools, and equipment are decontaminated.						

15	Terminate decontamination operations according to AHJ's policies and procedures.						
16	Complete required reports and supporting documentation.
