New Jersey Division of Fire Safety & Kean University

Airport Rescue Fire Fighting Hour Certification Program

O V E R V I E W

This intensive 40-hour Aircraft Rescue Firefighting (ARFF) training course is designed to equip firefighters with the specialized knowledge and practical skills necessary to respond effectively to aircraft emergencies. Through a blend of classroom instruction and hands-on drills, participants will gain a comprehensive understanding of ARFF principles, including aircraft construction and hazards, fire behavior specific to aviation fuels, and rescue techniques for injured occupants. The curriculum emphasizes proper use of ARFF apparatus and extinguishing agents, strategic incident command, and coordination with other emergency services. Successful completion of this course will prepare participants to mitigate risks, suppress fires, and perform critical rescue operations in challenging aircraft accident scenarios, adhering to industry best practices and regulatory standards.

*** Students are required to attend all five (5) days.**

Applications will be available by request only by emailing kgrant@exchange.kean.edu
